

FITNESS CENTER AV MODERNIZATION
Equipment Cost Proposal

DATE

August 27, 2026

PREPARED BY

Jacob Smolinsky

FACILITY

R.J. Corman Fitness Center

PROJECT

TV and Volume Control Upgrade

LOCATION

Nicholasville, KY

STATUS

Internal planning

SUMMARY

This covers replacing **18 aging TVs** with new **50 inch VIZIO 4K** sets, and adding a **wall-mounted control tablet** that runs our in-house **RJC TV Control** app. With it, staff change every TV's channel and set the speaker volume from one touchscreen in the room. The tablet talks to the DirectTV receivers and the BSS audio processor over a wired network connection from the Surface Dock, and the steel enclosure keeps it locked to the wall.

Displays: 18 VIZIO 50 inch 4K televisions	\$4,644.00
---	-------------------

Wall control tablet station (one)	\$496.29
-----------------------------------	-----------------

EQUIPMENT TOTAL	\$5,140.29
------------------------	-------------------

Optional second tablet station	add \$496.29
--------------------------------	--------------

Estimated KY sales tax (6%, if not tax-exempt)	add \$308.42
--	--------------

SECTION A: DISPLAY REPLACEMENT

ITEM	QTY	UNIT	EXTENDED
VIZIO 50" V-Series 4K UHD Smart TV SmartCast, three HDMI inputs, LAN and Wi-Fi, VESA 200x200. Same family as the V505 sets already here.	18	\$258.00	\$4,644.00
SECTION A TOTAL			\$4,644.00

SECTION B: WALL CONTROL TABLET STATION

ITEM	QTY	UNIT	EXTENDED
Microsoft Surface Pro 7+ (i3, 8 GB, 128 GB, Win 11 Pro) 12.3 inch touchscreen 2-in-1 that runs the RJC TV Control app. Amazon Renewed.	1	\$333.33	\$333.33
Microsoft Surface Dock PD9-00003 Gives the tablet wired Gigabit Ethernet plus power, so it stays on the control network and charged. Amazon Renewed.	1	\$79.99	\$79.99

ITEM	QTY	UNIT	EXTENDED
Mount-It! secure steel tablet wall enclosure Locking anti-theft housing for 9.7 to 13.1 inch tablets. VESA 75x75, portrait or landscape.	1	\$49.99	\$49.99
Cat6 Ethernet run (25 ft) to the wall location Wired link from the enclosure back to the nearest control-network switch port.	1	\$12.99	\$12.99
Surge protector (6-outlet) Protects the dock and tablet at the mount.	1	\$19.99	\$19.99
RJC TV Control application (in-house build) One tap changes the channel, touch sliders set the volume. Already built, no license cost.	1	\$0.00	\$0.00
SECTION B, ONE COMPLETE STATION			\$496.29

WHAT EACH ITEM IS

VIZIO 50" V-SERIES 4K SMART TV

The screens on the wall. 4K, three HDMI inputs, and built-in networking over LAN or Wi-Fi. VIZIO's **SmartCast** is what the RJC TV Control app uses for on-screen volume, mute, and power. It is the same family as the V505 sets already running here.

MICROSOFT SURFACE PRO 7+ TABLET

A full Windows tablet, the touchscreen staff tap to run the room. It runs the **RJC TV Control** app directly. Buying it renewed keeps the cost down, and an i3 with 8 GB of RAM is plenty for a single-purpose panel like this.

MICROSOFT SURFACE DOCK

This is what makes the wall tablet dependable. It gives the tablet a **wired Gigabit Ethernet** connection so the app can always reach the DirecTV receivers on 10.13.0.x and the BSS audio processor. It also powers the tablet so it stays charged, and it connects with one magnetic cable.

MOUNT-IT! STEEL ENCLOSURE

Locks the Surface Pro to the wall inside a tamper-resistant steel housing. VESA 75x75, portrait or landscape, with a cutout for the dock cable. It turns the tablet into a permanent control panel.

CAT6 CABLE AND SURGE PROTECTOR

The supporting parts for the install: a network cable from the enclosure to the nearest switch port, and surge protection for the dock and tablet at the mount.

RJC TV CONTROL APP (IN-HOUSE, \$0)

Already built and in use. One tap sends every TV to a channel, and big touch sliders set the speaker volume per zone. There is no per-seat license, and it installs on as many stations as we want.

NOTES AND ASSUMPTIONS

- **Pricing.** The three tablet items are the exact Amazon listings you sent, captured Aug 27, 2026: Surface Pro 7+ at \$333.33, Surface Dock at \$79.99, and the enclosure at \$49.99. The TV price is typical retail (Walmart or Amazon) for the 50 inch V-Series and should be confirmed at purchase. Buying 18 at once may bring it down.
- **Renewed hardware.** The Surface Pro and Dock are Amazon Renewed to keep the cost down, and both carry a 90-day return. New units run roughly \$150.00 to \$250.00 more for the tablet if you would rather have a full warranty.
- **Signal check.** The wall channel lineup (2.1 through 22.1) comes from the in-house modulator rack. Confirm the new VIZIO tuners accept that feed (clear-QAM), or plan to feed each TV from its DirecTV box over HDMI. SmartCast volume and power need each TV on the network, so reserve a DHCP address per set.
- **Network.** The control tablet has to sit on the same network as the receivers and the audio processor. The Surface Dock's wired port is the way to do that. Wi-Fi is not recommended for a fixed panel.
- **Not included.** Install labor (mounting, cable runs, hauling off the old sets), tax if it applies, and freight. If R.J. Corman is tax-exempt, drop the sales-tax line.
- **Adding stations.** A second identical tablet station, say front desk plus the floor, adds \$496.29. The app itself has no limit.
