Internal Equipment Quote & Cost Reference

QUOTE #

RJC-FC-2026-001

DATE

August 27, 2026

PREPARED BY

Jacob Smolinsky

STATUS

Internal planning

PREPARED FOR

R.J. Corman Fitness Center

PROJECT

TV + Volume Control
Modernization

LOCATION

Nicholasville, KY

VALID

30 days (verify pricing)

SUMMARY

This quote covers replacing **18 aging displays** with new **50-inch VIZIO 4K** televisions, and adding a **wall-mounted control tablet** — a Microsoft Surface Pro running the in-house **RJC TV Control** app — so staff can change every TV's channel and speaker volume from one touchscreen in the room. The control tablet reaches the DirecTV receivers and the BSS audio processor over a wired network connection provided by the Surface Dock; the secure enclosure fixes it to the wall.

A · Display replacement — 18 × VIZIO 50" 4K

\$4,644.00

B · Wall control tablet station (×1)

\$496.29

EQUIPMENT TOTAL (BASE)

\$5,140.29

+ Optional TV wall mounts (18, if not reusing existing)

+ \$449.82

+ Optional second tablet station

+ \$496.29

Est. KY sales tax (6%, if not tax-exempt) on base

+ \$308.42

A · DISPLAY REPLACEMENT

ITEM	QTY	UNIT	EXTENDED
VIZIO 50" V-Series 4K UHD Smart TV STREET SmartCast, HDMI×3, LAN + Wi-Fi, VESA 200×200. Matches existing V505-series.	18	\$258.00	\$4,644.00
Low-profile tilting wall mount (VESA 200×200) OPTIONAL Reuse existing brackets where compatible — budget as optional.	18	\$24.99	\$449.82
SECTION A — TVS ONLY (MOUNTS OPTIONAL)			\$4,644.00

B · WALL CONTROL TABLET STATION

ITEM	QTY	UNIT	EXTENDED
Microsoft Surface Pro 7+ (i3 / 8 GB / 128 GB, Win 11 Pro) LINKED 12.3" PixelSense touchscreen 2-in-1. Runs the RJC TV Control app. Amazon Renewed.	1	\$333.33	\$333.33

ITEM	QTY	UNIT	EXTENDED
Microsoft Surface Dock PD9-00003 LINKED Gigabit Ethernet + power + USB. Keeps the tablet wired to the control network and charged 24/7. Amazon Renewed.	1	\$79.99	\$79.99
Mount-It! Secure Steel Tablet Wall Enclosure LINKED Anti-theft locking enclosure, 9.7–13.1", VESA 75×75, portrait/landscape.	1	\$49.99	\$49.99
Cat6 Ethernet run (25 ft) to wall location STREET Wired link from the enclosure to the nearest control-network switch port.	1	\$12.99	\$12.99
Surge protector (6-outlet, wall-adjacent) STREET Protects the dock + tablet at the mount.	1	\$19.99	\$19.99
RJC TV Control application (in-house build) IN-HOUSE One-touch channel + zone-volume control. Already developed — no license cost.	1	\$0.00	\$0.00
SECTION B — ONE COMPLETE STATION			\$496.29

ITEM DESCRIPTION GUIDE

VIZIO 50" V-SERIES 4K SMART TV

The screens on the wall. 4K UHD, three HDMI inputs, and built-in networking (LAN or Wi-Fi). VIZIO's **SmartCast** network interface is what the RJC TV Control app uses for on-screen volume, mute, and power — the same model family already in service here (V505-series).

MICROSOFT SURFACE PRO 7+ (CONTROL TABLET)

A full Windows tablet — the touchscreen staff tap to run the room. It runs the **RJC TV Control** app natively. Renewed/refurbished keeps cost low; an i3 with 8 GB RAM is ample for this single-purpose kiosk.

MICROSOFT SURFACE DOCK

The reason the tablet works reliably on the wall: it supplies **wired Gigabit Ethernet** so the app can always reach the DirecTV receivers (10.13.0.x) and the BSS audio processor, delivers power to keep the tablet charged 24/7, and connects with one magnetic cable.

MOUNT-IT! SECURE STEEL ENCLOSURE

Locks the Surface Pro to the wall in a tamper-resistant steel housing. VESA 75×75, portrait or landscape, with a cutout for the dock cable — turns the tablet into a permanent in-wall control panel.

CAT6 RUN + SURGE PROTECTOR

Supporting install parts: a network cable from the enclosure to the nearest switch port, and surge protection for the dock and tablet at the mount.

RJC TV CONTROL APP (IN-HOUSE · \$0)

Already built and in use. One tap sends every TV to a channel; big touch sliders set speaker volume per zone. Free — no per-seat license, and it installs on as many stations as needed.

NOTES, ASSUMPTIONS & COMPATIBILITY

- **Pricing.** The three tablet-kit items are the exact Amazon listings provided (captured Aug 27, 2026): Surface Pro 7+ \$333.33, Surface Dock \$79.99, enclosure \$49.99. TV pricing is typical retail (Walmart / Amazon) for the 50" V-Series and should be confirmed at purchase; bulk or account pricing may reduce it.
- **Renewed hardware.** The Surface Pro and Dock are Amazon Renewed to control cost; both carry a 90-day return. New units are available at roughly \$150.00–\$250.00 more for the tablet if a warranty is preferred.
- **Signal compatibility.** The existing wall channel lineup (2.1–22.1) is produced by the in-house modulator rack. Confirm the new VIZIO tuners accept that feed (clear-QAM), or plan to drive each TV from its DirecTV box over HDMI. Volume/power control over SmartCast requires each TV on the network — reserve a DHCP address per TV.
- **Network.** The control tablet must sit on the same control network as the receivers and audio processor. The Surface Dock's wired port is the supported path; Wi-Fi is not recommended for a fixed kiosk.
- **Not included.** Installation labor (mounting, cable runs, disposal of old sets), taxes if applicable, and freight. R.J. Corman's tax-exempt status, if it applies, removes the sales-tax line.
- **Scalability.** A second identical tablet station (e.g. front desk + floor) adds \$496.29. The app itself is unlimited.
